

Learning Support Center **VOKAN**

VOorKempen Antwerpen Noord

Learning supporter:

Mail address:

What is learning support?

- ✓ Support for schools with regular education where students with additional care needs attend school.
- ✓ We work with your child, the class, the teacher and the school.
- ✓ Learning support is not an x number of hours per week for an entire year, but is tailored to the needs that exist: "As long as necessary, not longer than necessary."

When learning support?

If your child needs more help than what the school already makes in terms of efforts and reasonable adjustments, your child is entitled to learning support.

CLB prepares a GC report, an IAC report or OV4 report in consultation with the school and you. The school contacts VOKAN.

A VOKAN learning support worker will contact you.

COURSE OF THE PROJECT:

explore care needs, → start discussion, → walk, → reflect

Everyone, without exception, counts and participates!

Partnership

Together we set goals and make agreements. All partners take responsibility in the learning process and work together openly and transparently.

Believe in growth

Everyone can learn and perform well, regardless of background, skills or challenges.

Quality of learning support

Together we work on a good learning environment by paying attention to appropriate expertise. Our teams are diverse and have different skills.

We enjoy working with you as a parent.

There are several options to get in touch with the learning support worker:

- mail
- telephone
- written
- consultation
- ...

Indicate what you need to achieve a pleasant collaboration.

Any questions? Be sure to contact the learning support center or take a look at our information point on the website
